

2016 Oregon Health CO-OP Essential Health Benefits (With Oral Chemotherapy Designation) Formulary Reference Guide

Effective 4/1/2016

Your formulary utilizes a Pharmacy and Therapeutics Committee (P & T Committee), made up of practicing physicians, pharmacists, and nurses to help ensure that our formulary is medically sound and that it supports patient health. This committee reviews and evaluates medications on the formulary based on safety and efficacy to help maintain clinical integrity in all therapeutic categories.

FORMULARY DESIGN

Optum has chosen a closed formulary structure for our Essential Health Benefits Formulary. The formulary structure features generics, preferred and non-preferred brand-name drugs, specialty drugs, oral chemotherapy drugs, and ACA (Affordable Care Act) preventive drugs. A closed formulary limits coverage to only those products listed in these levels. Products not listed on the formulary are generally not covered.

- *Generic drugs:* Most generic drugs are listed under “GENERIC”. Drugs listed under “GENERIC” have the same active ingredient as the brand -name versions but at a lower cost.
- *Preferred drugs:* Drugs listed under “PREFERRED” include preferred brand name drugs that will generally have lower co-payments than non-preferred brand name drugs.
- *Non-preferred drugs:* Drugs listed under “NON PREFERRED” generally have higher co-payments than preferred brand name drugs.
- *Specialty drugs:* Drugs listed under “SPECIALTY” generally have the highest co-payment and cost. These drugs are prescription medications that are sometimes used to treat complex and chronic conditions and may require special monitoring or handling. Because of this specialty drugs need to be filled through our partner, BriovaRx Pharmacy, with the exception of anticoagulants, HIV, infertility and some limited oncology medications. If you have questions, please contact BriovaRx at 855-427-4682.
- *ACA preventive drugs:* Drugs listed under “PREVENTIVE” may have coverage and no co-payment when health care reform requirements are met for age, gender, and/or risk factors.
- *Oral chemotherapy:* Drugs listed under “ORAL CHEMO” may have a designated copayment or co-insurance specific to these products based on state laws surrounding oral chemotherapeutic agents.
